## WELCOME TO SPRING

Welcome to spring! With the winter heating season behind us, we can take a breather to look back at what our strengths and weaknesses were for this past season. As with every year, at this time, we evaluate what we have done right and what we could do to improve on our services to you. With the down turn in the economy, we will be offering several new programs.

- Budget Plan discount—0.3 Cents per gallon discount on all deliveries to budget customers who's balances are current.
- We are now selling pre-buy fuel for the 2009 - 2010 heating season. If interested please call the office
- Refer a friend program—a \$25.00 heating oil credit for each homeowner that you refer to our company, who in turn signs up for automatic delivery.
- EFT payment plan— we are exploring adding pay by check over the phone
- Spring is the time to get out that barbecue grill out and to get the camper ready for summer trips. Our propane fill station is ready to fill your barbecue grill tanks and camper tanks. Don't have time to wait, drop off the tank and we will have it filled and waiting for you when you return.
- Have a pool, we sell a complete line of propane pool heaters. With a pool heater, you can increase the time that you can enjoy your pool. Call us to day and we will be glad to quote you on a new pool heater.

Vent Water Heater*

## ANNUAL TUNE UP

Don't forget to do your

### Spring Tune-up

*Now that winter is over, make sure to schedule a tune-up of your heating system.*

Scheduling an annual tune-up is the best to protect the investment you have in your system. After all, repairs and replacements can be pricey. While many people tend to schedule this in the fall, we can do a much better job at cleaning your system if you call us before the soot and carbon deposits in your equipment has a chance to harden. It kind of like cleaning your stove top after you cooked a messy meal. If you wipe it right away, it's fast and easy. If you wait, removing the stains is much more difficult.

# GET CONTROL OF YOUR YEARLY FUEL BILL WITH A BUDGET PLAN

Here are the benefits to setting up a budget plan.

- **11 Even Payments a Year**—By spreading your payments over a 11 month period, you get the convenience and security of knowing what your fixed payment schedule. Even if you get more than one delivery during the month, you still have one low monthly payment.
- **Computerized Automatic Delivery**—Our computerized automatic delivery systems ensures that you'll always have the fuel needed to keep your home and your family comfortable throughout the year.
- **Include the Cost of your service contract.** Spread your cost of your service contract by including it's cost into your budget plan
- **Take advantage of automatic payments.** Have you budget plan automatically deducted from you debit card, credit card, savings account or checking account . Save time and postage associated with mailing checks.
- **All current budget plans will get a .03 cents per gallon discount** off the normal daily delivery price.

Call the office and we will be glad to calculate your plan based on your estimated yearly fuel usage.

## BACKUP PLAN

It is always nice to have a backup plan

### Propane — A Smart Choice

Propane can provide for an excellent backup plan as many propane appliances will run when the power is out. Propane is a clean, reliable fuel, and would make a great back-up to your oil heat system. We have many types of fireplaces and stoves which would make a great addition to your family room. Propane is much easier to regulate than wood and is also safer in many ways. For more information on any of the propane appliances that you could have installed, please call one of our two convenient locations.

## Refer a Friend

Would you like to earn \$25.00 credit on your fuel account, receive a \$25.00 credit for any referrals that sign-up for automatic delivery with us.

## Pellets & Pellet Stoves

We have both Maine Wood Pellet Co (Athens) and Corinth Wood Pellets in stock for immediate pick-up. Should you want to wait until later this summer, let us know what quantity you want, so we can submit our order to our suppliers to make sure we can get the pellets when you want them.

**Pellet Stoves**—We have both the Regency Greenfire pellet stove and the Napoleon pellet stove in stock. We carry a full line of venting for these stoves and we also carry a variety of hearth pads for your stove to set on. We have both stoves on display in both of our locations so stop by to check them out.

Hearth Pads
